
Bid Items Application

NOTE: This is intended for use by non-DOT offices.

When the [Bid Item Application](#) is accessed, *click* the **Login to BID ITEMS** option, as shown below.

The screenshot shows the Iowa DOT website interface. At the top, there is a navigation bar with "iowa.gov", "Agencies", and "Online Services" links, along with a search box. Below this is a blue banner for the "Iowa Department of TRANSPORTATION" with an "INDEX" menu and a search bar. The main content area features a large graphic with "http://", "BID", and "OFFER" text. Below the graphic is a section titled "Bid Items Application" with a sub-heading "Information and instructions". A red arrow points to the "Login to BID ITEMS" link. Below this link is a section titled "Why is this required and what does it include?" with a paragraph of text.

After Login is complete, select the appropriate type of access.

After you have been approved by the DOT, you will see the screen below. The only projects to display in the list are those that are assigned to you (see **NOTE** below). Select a Project Number from the *drop-down* selection list (red arrow below). Contact your DOT representative if your project is not in the list. Click the **Bid Items** (blue arrow below) button to continue.

The screenshot shows the Iowa Department of Transportation website. At the top, there is a navigation bar with 'Iowa.gov', 'Agencies', 'Online Services', and a search bar. Below this is a header for 'Iowa Department of TRANSPORTATION' with an 'INDEX' menu and 'DOT Home | DOT Phone Book | Contact Us' links. The main content area is divided into two columns. The left column contains a 'Bid Items' list with various project numbers. A red arrow points to the entry 'MB-006-4(501)44-77-15'. Below this list is a section for '(PIN Information)' with fields for PIN Number, Project Number, Design Number, County, Route, PIN Location, Const, and Traffic Signs. The right column contains project details such as 'Corridor: None', 'District: 4', 'District Engineer: Troy A. Jerman', 'Manager: Don Stevens', 'Project Group: Maintenance', 'Access Control', 'Railroad Involved', 'Railroad Agreement: No', 'Lighting', 'Utility Status: Non-Point 5', 'Miles: 0.00', 'Kilometers: 0.00', 'Beg. Milepost: 44.20', and 'End Milepost: 44.20'. At the bottom, there is a section for '(Project Information)' with fields for Status, Project Location, Work Desc, Project Directory, Traffic Handling, and Consultant. A '(Design Number)' section follows with 'Description 1' and 'Description 2'. A 'File No:' and 'Station No:' are also displayed.

NOTE: Below is a screen shot from TPMS. If you are not listed in the project development contacts below in TPMS for a particular project, you will not be able to view the project in the Bid Items Application. Also, the email address listed in TPMS must match the email address listed in Enterprise A&A.

To add a Division, *click* the **Add Division** option (red arrow). Bid Item divisions provide a break-down of bid items and quantities. The main reason for this break-down is for cost tracking. A couple examples include items paid for by cities on a state project, and bridge/road item breakouts. Divisions may have duplicate items or they may not.

4	DS-15003	Added Options Bidding
5	DS-15017	Adhesive-Bonded Anchors and Dowels for Traffic Railings

Enter New Special Provision Title Here:

2015

To add a Special Provision, type the name of the Special Provision into the textbox next to the Update button. Click the Update button to add the Special provision into the list of Specifications for the Project Number. The added Special Provision will be assigned a number based on the next available number in the district the project is in. To use the same SP for multiple projects in the same letting, contact the Specifications Section to add the SP to the additional project(s) so that it will have the same SP number.

Special Provisions or specifications may not be deleted from a Project Number by the user. Contact the Specifications Section of the Office of Contracts to remove a Special Provision or Specification from a Project Number.

Specifications cannot be added to a project number after the plan turn in date. If you enter the specifications page after the plan turn in date there will be a message indicating that specifications can no longer be added to this project number. The contact information for the Specifications office of the Office of Contracts is given if a specification is needed to be added to the project.
