

EACH AIRPORT MAKES AN IMPACT ON IOWA'S ECONOMY

The Iowa DOT prepared the 2022 Aviation Economic Impact Report to better understand how the aviation system works and the importance of the aviation industry to the state's economy. Businesses and individuals rely on aviation to move them quickly and to deliver specialized aviation services that keep Iowa competitive. The **Keosauqua Municipal Airport** provides access to individuals and businesses, meeting the aviation needs of the local community.

THE VALUE OF LOCAL SERVICE AIRPORTS

Local Service airports keep small communities throughout Iowa connected to the nation's air transportation system. General aviation activities at these airports vary based on local needs and airport uses, but can provide important air access to serve the community and region for users including air medical providers, public safety officials, and aerial applicators. Combined, these small, locally operated airports support **over 15,000** annual visitors and critical users across Iowa each year.
