

OVERVIEW

The Iowa DOT Aviation Bureau, in completing the 2020 Iowa Statewide Aviation System Plan (SASP 2020), seeks to support its mission to ensure that the airport system will serve all facets of aviation in a safe and efficient manner. This report provides a summary of findings as they relate to Marshalltown Municipal Airport and the state system.

MARKET CONNECTIONS

The airport supports connectivity to numerous markets throughout the United States and beyond. FAA flight data shown on this map presents a one-year snapshot of select markets served.

Data Source: FAA TFMS; CY 2018

DIFFERENT ROLES FOR DIFFERENT NEEDS

A highly-functioning transportation system has airports with varying facilities and services that serve distinct roles. Iowa's airport system is stratified into five roles that aid the Aviation Bureau in planning and prioritizing airport improvement and maintenance projects. These roles help the Aviation Bureau drive Iowa airports to best serve their market niche and user base.

MARSHALLTOWN MUNICIPAL AIRPORT FACILITY AND SERVICE OBJECTIVES

AIRSIDE FACILITIES	MEETS OBJECTIVE			
Primary Runway Dimensions				
Taxiway Layout				
Approach Type				
Navigational and Visual Aids				
Weather Reporting				
LANDSIDE FACILITIES				
Aircraft Storage				
Terminal Building				
Paved Auto Parking				
SERVICES				
Fixed Base Operator				
Fueling Services				
Attendance Schedule				
Terminal Amenities				
Ground Transportation				
Snow Removal				
Security				
Aircraft Maintenance				
Flight Instruction				
Aircraft Rental/Charter				
PLANNING				
Land Use Plan				
Height Zoning	Ø			
Airport Layout Plan				

FACILITY AND SERVICE OBJECTIVES

Facility and service objectives were identified to help guide future development, creating a path for each airport to best serve its market. Existing airport conditions are compared to the objectives for each role; projects are recommended when a deficiency is noted.
