LOCAL SERVICE

GENERAL SERVICE airports are those that have runways over 4,000 feet and services that cater to small and mid-size business jets. The airports in this role are recognized as community assets.

DIFFERENT ROLES FOR DIFFERENT NEEDS:

A highly-functioning transportation system has airports with varying facilities and services that serve distinct roles. Iowa's airport system is stratified into five roles that aid the Aviation Bureau in planning and prioritizing airport improvement and maintenance projects. These roles help the Aviation Bureau drive Iowa airports to best serve their market niche and user base.
